

Honoring Marcie Harris – 30 years as of Sept 2015

## Kudos!

“ We are very pleased to honor Marcie Harris’s 30 years of service in the Department of Orthodontics. Marcie began her career in the Fears Clinic, went to Graduate Prosthodontics, and then found her home in the Department of Orthodontics 20 years ago. During these two decades, she has been involved with training more than 100 orthodontists who practice and teach all over the world. That is quite an accomplishment! Marcie has been involved with many changes during her time at UW Orthodontics. She has served under 3 Chairs and several Clinic Directors, and was a great help during the remodeling of our clinic which occurred 4 years ago. She also witnessed many changes in the field of orthodontics, including the transition to completely digital records, the advent of aligner treatment, and the use of implanted anchorage devices. Marcie’s positive and helpful attitude has been much appreciated by the residents and faculty over her entire career at the UW. All of her former students and colleagues join us in congratulating her and thanking her for her 30 years of dedicated service to the School of Dentistry and the Department of Orthodontics. – Dr. Greg Huang and Dr. Geoff Greenlee
