

UW ORTHODONTIC ALUMNI ASSOCIATION NEWS

December 1995

Speakers, Sun, Fun, Sand: WOW, It's the Clinical Update in Ixtapa!

Did we have a good time or what? The Clinical Update in Ixtapa, Mexico was deemed a great success all the way around. With inspiring educational sessions in the mornings, afternoons free for activities, a cocktail party get-together, and banquet feast farewell, alumni and friends made the most of their wonderful week at the Westin Ixtapa. We want to share a few of the highlights with you. For those of you who attended, this should bring back some fond memories. For those of you who didn't, maybe we can entice you to attend next time!

Stan Hall ('79) is still smiling despite winning the dubious "Montezuma's Revenge" award at the Farewell Banquet.

Nancy Joondeph (wife of Marc, '76) enjoys the surf at the Westin.

Two Orthodontic Amigos! Ken Agronin ('84) and Tim Shields ('83) show a new side of "banding" during the Farewell Banquet.

Group Hug! Joni Marts, Connie & Doug Cameron ('71) and Charlie Gilmore ('83) enjoy the welcome cocktail party.

continued on page 3.....

MESSAGE FROM THE ACTING CHAIR *-Sue Herring-*

Even after 7 months at the job, it feels pretty strange to be standing in (or perhaps sitting in) for the Chair of the Department. But not only has Peter left the Department in good order, he has also been continuously available with help and "chairman lessons." I thank him, my colleagues on the faculty, the wonderful staff, and all the alumni for their encouraging words and practical advice.

The Department continues in excellent health, and all of the news is good. Here are some highlights. Applications for the class of 1998 are as strong and as numerous as ever, and we look forward to another stimulating group of students. Research funding from NIH to the Department is at its highest level in many years. We have new directors for our educational programs: Jon Artun for the graduate program and Peter

Shapiro for the undergraduate program. The Dental School under Dean Robertson breezed through its accreditation visit and is about to embark on an ambitious series of remodeling projects, some concerning space and some concerning DDS education. We expect to be involved in all of these. Most importantly, the Dean has shown his support of our Department by commencing an international search for a new Chair. The Search Committee is now being appointed and will soon be underway. Spread the word!

MESSAGE FROM THE PRESIDENT *-Doug Cameron-*

1995 has been an action-packed year for the Alumni Association and for the officers and Board of Directors.

The biggest surprise was Peter Shapiro's resignation as Department Chair. He felt the time was right for him to step down as Chairman and that it would be good for the Department to have new leadership. We all greatly appreciate Peter for 10 years as Chairman and we know it will be difficult to fill his shoes. Fortunately, he plans to remain on the faculty half time.

It was a memorable time for all those who attended the Orthodontic Update in Ixtapa/Zihuatanejo, Mexico last March. The meeting was outstanding and the weather was perfect. In spite of the fact that Montezuma's Revenge nailed a few of the attendees, it was a relaxing fun-filled vacation-education break. Our thanks to Ward Damon, the chairman, Mimi Rice for coordinating all the travel arrangements, and Joni Marts, who handled all the details.

In the past, the Department has relied on the income generated from the Alumni Endowment along with other sources of income to sustain the research activities in the Department. Well, most of the other sources of income have dried up, so the Department is relying heavily now on the income from the Alumni Endowment. We are very grateful to the majority of

alumni who continue to pay the annual dues as well as join the Century Club (\$1000+ donations), Founder's Club (\$5000+ donations) and the Chairman's Circle (\$10,000+ donations). Your donations are allowing us to meet this challenge.

Many alums have discovered that asking the responsible parties to pay a portion or all of the usual treatment fee by making checks payable to the "U of W Orthodontic Alumni Association" works well when treating friends, referring dentists' children or other professionals, particularly when neither party is comfortable with a reduced fee or no fee for treatment. After the completion of successful orthodontic treatment, some patients may express a sentiment of gratitude by making a tax-deductible contribution to the Association. Your donations are crucial to sustain the departmental clinical and scientific research, especially during this time of transition.

Bruce Hawley reports that plans are going well for the next Alumni Reunion in Seattle, July 25-28, 1997. Stan Hall is assembling an outstanding program. Plan to attend!

The Alumni Association will host a reception at the AAO meeting in Denver early in May. I hope to see you there and in the meantime, have a wonderful Holiday Season!

A Good Time Was Had By All In Mexico....

Open market shopping and a great dollar exchange lure Joni to nearby Zihuatanejo.

Lively local music and an outstanding sunset top off the welcome cocktail party!

Peter Shapiro ('73) gives a moving resignation speech.

Ward ('75) and Cristy Damon enjoy the welcome cocktail party.

Is that Marc Joondeph ('71) behind those dreadlocks? Only his hairdresser knows for sure!

Dave ('69) and Mimi Rice, our wonderful travel coordinator, enjoy the evening banquet.

Mary and Gary ('72) Nordquist join in the fun.

Barbara (l) and Jim Elder ('73, center) plan the week ahead with the Paris'.

Long Distance Travelers! Bruce Hawley ('77) and Connie Cameron join Christel ('89) and Peter Gooris, who won the award for traveling the farthest (from Holland!).

Dad Nick Johnson ('70) and daughter Nadine Egger ('92) brought the whole family for some sun and fun!

REMEMBERING EMERY FRASER BY KENNETH KAHN (Class of 1950)

The last surviving member of the original clinical teaching faculty of our UW Orthodontic Department passed away in Seattle on February 7, 1995.

He was born in Waterville, WA in 1902 and graduated from Northwestern University School of Dentistry. After practicing for a short time in Spokane, WA, he moved to Seattle in 1929 to continue his practice of dentistry and orthodontics.

Dr. Fraser was a pioneer of sorts - one of a group of excellent and very active dentists in this area who changed very early to orthodontics exclusively. This was pioneering because there were few training programs available to Emery. He attended the Dewey School in New York. There he met Dr. Edward H. Angle, considered by most of us to be the "father of modern orthodontics" - and a generous and patient teacher.

Emery's greatest mentor, however, was Dr. Charles H. Tweed from Tucson, Arizona. He attracted Emery because of his reputation for solving difficult problems, albeit by extraction of teeth (not too popular at the time).

Emery was joined in his adoration of "Charlie" by others in this area, namely: Dr. Pete Bishop, Dr. Milt Fisher, Dr. Paul Lewis, Dr. Bill McGovern - and it was this group who planned the faculty agenda for the newly developing Graduate Program at the University of Washington. (Dr. Milt Fisher died before the program started in March, 1949.)

I was a member of the first class and remember Emery as an excellent clinician - but serious and demanding. On Tuesdays when he supervised, our gold (YES, ALL GOLD) appliances had to fit like inlays or be done over.

He was meticulous, and this must have characterized his entire life! I'll tell you, it certainly influenced us as students - and we soon learned that there was only one way to do things - his way, the right way!

We left his guidance feeling that we had done more for our patients than we had done for their teeth. I, for one, am grateful for this feeling that stayed with me all my years of practice.

He will be sorely missed.

Our Distinguished Alumni...

Many of our alumni hold or have held leadership positions at various universities. This list is accurate to the best of our knowledge. If you know of any other UW alumni who should be presented with this group, please contact Joni.

Current:

Art Dugoni	Dean, University of the Pacific
Henry Fields	Dean, Ohio State University
Ken Glover	Chair, University of Alberta
Preston Hicks	Chair, University of Kentucky
Haruo Ishikawa	Chair, Nippon Dental University
Robert Moore	Dean, University of West Virginia
Bill Proffit	Chair, University of North Carolina
Peter Sinclair	Chair, University of Southern California
Pat Turley	Chair, University of California, Los Angeles

Former:

Amin Ades	Chair, UNITEC, Mexico
Dante Bresolin	Chair, University of Brasilia
Les Erickson	Chair, University of Colorado
Don Joondeph	Chair, University of Washington
Robert Moore	Chair, University of Nebraska
Peter Shapiro	Chair, University of Washington
Frans VanDerLinden	Chair, Nijmegen University
Carlos Telles	Dean and Chair, University of Rio de Janeiro
Bob Taylor	Chair, University of Tennessee

Department Publications

We have an extensive list of recent publication produced by our wonderful alumni. This list is just too long to put in the newsletter, and singling out a few simply wouldn't do justice to the others. If you are interested in receiving a copy of this list, Joni can either mail it to you or FAX it to you. Please call at (206)545-4541 or write to her at Box 31553, Seattle, WA 98103.

LASTING IMPRESSIONS - Wit and Witicisms of Note

The passing of Dick Riedel this past year brought about numerous and lengthy conversations among alumni regarding Dr. Riedel's unique teaching style and "one liners." These discussions invariably included memories of noteworthy sayings of others throughout the years. Dr. Allan Van Ness (class of 1972) decided to undertake the formidable task of collecting these great memories and is preparing a booklet that will be made available to alumni in the near future. You may recall his letter asking you to send in your special Department memories. The response has been terrific. So much so that we want to include a few of the wonderful responses in this newsletter. We hope to present this column in future newsletter editions, so please feel free to continue to send in your memories. Thanks so much to all of you for sharing these moments in time.

"If it's white, better band it!" (Phillip Barer)

(After hearing one of us "hem, haw, and beat around the bush" about what to do in treating a case):
"Come on - they're in the waiting room!" (Ron Gallerano)

"We always like to accept people from Texas because they always go back. I don't know why..... I went there once!" (Ron Gallerano)

"Tie it in and see what happens." (Jim Garol)

"If there is a lower incisor present in the mouth it will probably rotate." (Paul Henderson)

I summoned Dick to my chair, in the Friday morning clinic, anxious to hear his opinion about space closure. Amongst my classmates, we had argued the merits of sliding mechanics versus closing loops. As I showed him my "straight" arch wire and coiled spring, which I wanted to use on my patient, I anxiously anticipated his reply. Dick looked in my patient's mouth, grunted at my arch wire and calmly declared, "I tried that once." With that, he smiled and walked away! (Mark Joondeph)

Riedel taught us (class of 68) how to bend a lingual arch. None of us could bend it as wide as Riedel's. We noticed that he had a huge thumb around which he bent the wire. So we took an impression (Jeltrate) of his thumb and made 11 models so everybody could bend the lingual arch with Riedel's thumb. (Roberto Justus)

After Jim Horn referred to one of Dr. Riedel's arch wires as a "wonder wire," Dr. R. said "Yah, you wonder how they work!" (Bob Julius)

If you first get the question right, the answer follows of itself." (Bob Julius)

Discussing anchorage: "We could have made a fortune if we had invented elastics that would pull only at one end!" (Ken Kahn)

"The tooth doesn't know what's pushing on it" (eg: Ormco or Unitek Bracket). (David Kennedy)

When anybody asked him about a new gadget to move teeth: "If it is so great, why am I not using it?" (Raymond McNair)

I remember, on more than one occasion, asking Dr. Riedel a question on some aspect of mechanics. He would sit down and ask me : "What would you do doctor?" I would respond with a detailed 'how and why.' Dr. Riedel would stand up, nod his head (in apparent agreement), and walk away. As he shuffled off, his departing words were "YOU could try that, but I don't think I would" - and he'd be gone. (Ed Poremba)

"You had better treat that case before it treats itself!" (Steve Spurrier)

A frequent Riedel quote: "Knowledge does not make one a leader, but it should help one discover which leaders to follow." (Ed Supernaw)

Dick was always very protective of plaster casts, wanting to handle them with care to preserve the anatomy, etc. One day we prepared a "fall apart" set of models as part of a case presentation. As the models were passed from person to person, one of the students "accidentally" dropped the casts on the table. The casts shattered into pieces as planned - teeth were flying everywhere. Dick opened his eyes and said "*!%&#." When we all broke up laughing, he realized he had been "had" and started laughing too. He was a great instructor. (Dan Taylor)

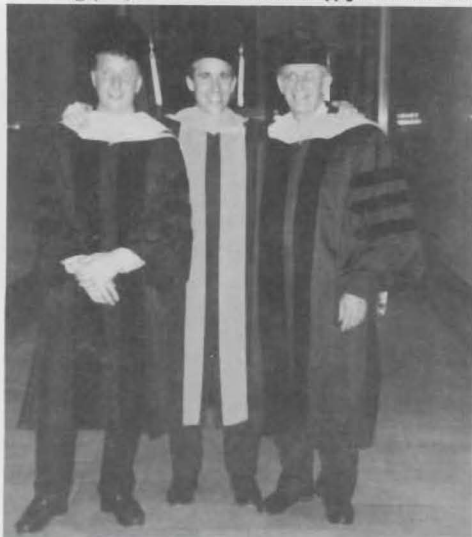

Dr. Riedel lectured once to our class ('93) and showed a slide of his dog proudly displaying it's anterior crossbite. Dr. Riedel just shook his head and remarked "Now there's a bite I never could correct!" (Heather Woloshyn)

Let's Catch Up...

Sun Valley!

Doug ('71) & Connie Cameron (l) join Jon Pierre Joho ('71) during a ski holiday.

Proud dad, Ron Allen ('69) with son Brian (center), and Trevor (l). Brian graduated from Creighton U. in May and is practicing general dentistry in Gladstone, Oregon. Trevor is in the second year of orthodontic school at OHSU in Portland and plans to practice with his dad in the Portland area.

See how he's grown! Jordon Robert Turner (shown last year with the huge bear) is now 1 year old and "another Denny" according to dad, Dennis Turner ('71).

Christopher Irvin, son of Alan ('84) and Laura Irvin, is pleased to present his sister, Allyson, born in June.

The Class of 1985 reunited at the AAO meeting in San Francisco last May. They include: Sara Devine, Barbara Sheller, Trent Rencher, Mark Kitamura, Stephanie Kavanaugh, Gina Trask, Gary May and Stewart Rohrer.

These nine beautiful kids are the grandchildren of Robert ('59) and Altha Kelley.

Recently Retired

Daniel Sullivan
Tom Barksdale
Donald Baxter

Not, But Just Hear This

Get Serious (Ron Markey, '74)
No, just TIRED (Heather Woloshyn, '94)
NEVER (Dennis Turner, '71)
Of course not (Enrique Nestel, '87)
No need to (Stan Gum, '61)
I wish! (Jeffrey Schur, '88)

Let's Catch Up...

Dante Bresolin ('82) successfully defended his doctoral thesis in June at the Rio De Janeiro Federal University. His thesis subject was "Lateral Facial Proportions Evaluated by Areas Measurements Using Rasterization Computerized Methodology."

Chuck Alexander ('90) is happy to announce that his brother, Moody, has now joined his practice. Now its dad Wick, Chuck and Moody: Triple A Orthodontics!

Kenneth Kahn ('50) turned over his practice to Diane Doppel ('90) - EXACTLY 40 years after he began in the newly built addition to the Medical Dental Building in Seattle. October 1, 1950 - October 1, 1990!

Claire Ferrari ('94) has been traveling, mostly through Southeast Asia. She spent two months in Nepal working with the Cranial Facial Team in Katmandu. Thus far she has traveled through India, Parkastan and China, Tibet and throughout Indonesia and Malaysia. Before she starts a fellowship at the University of San Francisco in January 1996, Claire is visiting Burma, Vietnam, Australia and New Zealand.

Michael Sebastian ('87) finished and moved into his new office in June. He came in 3rd in the Member-Member golf tournament at Capital City Club and looks forward to the 96 Olympics in Atlanta!

Donald Montano ('87) and Melinda have moved to the country. Now a "farmer" with 5 acres, he notes that their 3 dogs and 4 cats will have to share space with the soon-to-arrive horses and sheep!

Ron Markey ('74) is currently the Vice President of the Canadian Association of Orthodontists. Congratulations Ron!

Tim Denison ('88) and Christina have welcomed 2 daughters to their family in the last 2 years: Olivia (2) and Madeline (born in August). Tim is busy, having opened his second office in Colchester, CT, and continuing to teach at the U. Connecticut as Assistant Clinical Professor.

Karen Hesse ('95) is teaching half-time as a Clinical Associate Professor at the University of Alberta. In addition, she is in private practice with Dr. Paul Major, the former Chairman of Orthodontics and full time Professor at the U. of A.

Peter Sinclair ('81) married Dr. Elyse Schauwecher, a neurobiologist from southern California. Peter also passed the ABO Part III examination and the California State Dental Board.

Barbara Sheller ('87) is "ready for a long vacation!" After two years as a working "single parent," she is happy to announce that husband Jeff Short received his certificate in Endodontics from OHSU in June and is now practicing in downtown Seattle.

Ron Gallerano ('76) says "Retired? You gotta be kiddin'!" With children Tracy, 23, (who was 3-4 years old while Ron was in residency) now a CPA; Lee, 18, starting college; and Natalie, 4, starting preschool, Ron says he is "starting over!"

Ray Kubisch ('76) caught a 26 lb. salmon on a recent fishing trip, only to be upstaged by daughter Danica, who caught a 37 pounder! Danica and Erika are at Westmont College in California, while Brittany attends 8th grade at Bellevue Christian School. Ray and Linda vacationed in Europe for 2 weeks in August.

Dan Taylor ('80) and Cindy have a foreign exchange student with the family this year: 16 year old Juliana Gremi from Albania. Juliana joins Andy (20), Amy (18), Annie (14), Christy (11) and Michelle (7).

Dr. K.C. Woon ('79) is the founder and first President of the 41-member Malaysian Association of Orthodontists. Dr. Woon presided over the Association's Inaugural Conference and Trade Exhibition at the Concorde Hotel in Kuala Lumpur, Malaysia on April 2-3, 1995. The keynote speaker for the scientific sessions was **Bill McNeill ('64)**. Bill and Linda were treated royally by K.C., her family and her colleagues. It was a treat for them to have the opportunity to visit the modern city of Kuala Lumpur and to gain an appreciation for the progressive multicultural Malaysian society.

UW graduates played a prominent role in the recent founding of the World Federation of Orthodontists. Of the 66 organizations comprising the WFO, seven were represented by our alumni. **Alvaro de la Cruz ('64)**, acting on behalf of the Academia Costarricense de Ortodoncia, was the first signer of the WFO Charter. **Roberto Justus ('68)** represented the Asociacion Latinoamericana de Ortodoncia, **Armando Gutierrez ('75)** the Asociacion Salvadorena de Ortodoncia, **David Taylor ('63)** the Australian Society of Orthodontists, **K.C. Woon ('79)**, the Malaysian Association of Orthodontists, **Oscar Muguerza ('80)**, the Sociedad Venezolana de Ortodoncia, and **Jean-Pierre Joho ('71)**, the Swiss Orthodontic Society. We can take great pride in the international leadership provided by our fellow UW graduates.

Let's Catch Up...

Fish Stories...

John Ive ('79) - the 1995 winner of the Puget Sound Study Club Trophy.

The Nestel Family: Elian, Enrique ('87), Natalie, Astrid.

Enrique Nestel ('87) just opened his new satellite office, "Perfect Smile," offering all dental specialties with "very attractive prices - especially during this difficult [Mexican financial] crisis time." Enrique enjoys their new house in the suburbs - although he is "paying the price" of driving the extra miles. Recent addition to the family: Golden Retriever Kimba, apparently joining the Nestel family by application of strong pressure from daughters Elian and Natalie!

Stan Gum ('61) has enjoyed his practice with daughter, Dr. Nancy Gum, for the past 6 years. Both work 18-20 hours per week, allowing time for other activities and for Nancy to spend time with her 2 daughters. Stan and wife Cindy's family includes 4 daughters and 4 grandchildren.

Charlie Gilmore ('83) was elected president of the Board of the Yakima Country Club for 1995-96. Judi and her Thoroughbred "Houligan" did quite well in the Pacific NW jumping shows this summer. She rides in the "Adult Amateur" class in the hunter ring. Their son, John Johnson, married Leanne last summer. He is applying for dental school for the class entering in 1996.

Kenneth Norwick ('69) is now joined in practice by his son **Ken Norwick ('95)** and they are having a great time!

Robert Moore ('76) was a featured speaker at the "Promoting the Recruitment and retention of Minority Faculty Symposium" sponsored by the American Association of Dental Schools in Savannah, GA, October 27-29.

Andy Collins ('69) joined class of 69 mates Meikle, Hassig, Rice, Norwick, Quessenberry, and Wimpey for several days in the wine country following the San Francisco AAO meeting. Andy says "no one would believe we look so young." We'll just have to take his word for it!

OH, BABY!

Turley (Patrick, '78) born 9/95
Popp (Tom, '90) due 1/96
Nestel (Enrique, '87) due 4/96
Vermette (Michael, '94) due 2/96

Rebecca Poling ('84) passed the Boards in March and simultaneously served as President of the Alaska State Society of Orthodontists. As a reward, the family toured Italy and met Rebecca's stepdaughter there (Alyssa was an exchange student in Belgium).

Rebecca and Mike Poling with children Alyssa, 16 (l), Brooks, 15 Sarah, 12 and Scott, 9.

Jean Pierre Joho ('72) and the "one that got away" (catch and release).

Raymond McNair's ('53) son William with grandchildren Nicholas and Stephanie on the Rogue River, Oregon.

Foster Bucher ('80) says trying to keep up with 3 teenagers (Matthew, 17; Andrew, 16; and Sarah, 13) occupy most of their "free" time. We're happy to hear that wife Cher is doing much better as she "learns to reshape" her life after several years of health problems and treatment at the Mayo Clinic.

Let's Catch Up...

John ('55) and Marilyn Anderson hosted a reunion of John's class at Black Butte Ranch, Oregon (his home), including golfing, fishing, tennis, biking, and hiking. The whole class was present (8!) and enjoyed informal dinners, picnics and lots of memories. It was the first husband and wife get-together of the whole class in 35 years! Marilyn volunteers for the Forest Service part-time as a lookout and both stay active hiking, birding and golfing. John and Marilyn say "Please let us know if anybody visits BBR - we're always ready for a golf game or a dinner out!"

William Wise ('58) says hello to all the gang. In 1958 he was part of a team (Bert Kraus & Dick Frei) that won the Milo Hellman award. A founding member of the Baylor Graduate Department of Orthodontics, he taught there until the mid-70's. For 6 years, he served on the Research Council of the AAO and was president of the local (Dallas) Orthodontic Society for 2 terms. William and Ruthanne are planning to come to Seattle in 1998 (40 year anniversary!).

Philip Barer ('84), bought a new home with Lori at the beginning of 1995. "Life goes on!" says Philip, who practices 3 days a week, as well as teaches part-time at University of British Columbia.

Doug Knight ('95) purchased the thriving practice of Dr. Tom Barksdale in Tacoma and is "closely working with Vince Kokich, showing him all the new trends in orthodontics these days." Doug says things are going very well, thanks to the support from Tom Barksdale.

Terry Tingey ('81) stays busy with his family (wife Paula, Brent, 17; Suzy, 15; Greg, 12; Travis, 11; and Kevin, 8), coaching baseball and soccer.

Thornton Taylor ('63) reports that he is still practicing in Canberra and, "for my sins next March I will assume the Presidency of the Australian Society of Orthodontists for two years." Thornton also serves on the Executive of the Australian Dental examining Council (overseas trained graduates so they can become registered and practice in Australia). He is also on the Australian Dental Council which is an umbrella organization that includes the registration boards, dental faculties, and ADA and other interested groups. Thornton says that when things get too hot he thinks of retirement. "I have made it known that I intend to commence a career as a professional yachtsman but to date have received only limited expressions of interest."

Two of **Andrew ('60) and Colleen Houg's** children have made a career in the dental field: Susan (29) graduated from the University of the Pacific School of Dentistry in 1995 and Lynn (32) is a practicing dental hygienist. Daughter-in-law Robin (married to son Bradley, 35) is a dental assistant and is applying to dental hygiene school next year! Granddaughter Alexandra (4) hasn't determined her career path yet, but she has quite a few role models!

Andres de la Cruz ('92) has been in private practice with his father **Alvaro ('64)** and brother **Ronald ('93 - Oregon Health Sciences U.)** for the past three years. Last April they opened a new satellite office on the west side of San Jose, Costa Rica. They continue to see patients in their two offices, east and west. Andres was pleased to attend the AAO meeting in San Francisco and enjoyed seeing all the familiar faces of classmates and friends from the UW.

Roberto Justus ('68) was elected President of the Latinamerican Association of Orthodontics. He happily announces that his older son, Mauricio, married Ileana Jinich and both are going to Cambridge in January where Mauricio will study for his MBA at Harvard.

You Will Be Missed...

Thomas Ludwick (class of 1958)

Emery Fraser (faculty)

Sarah Miller McNair (wife of Raymond McNair, class of 1953)

Alana Van Ness and J.P.

Hennessey (wife and son of Allan Van Ness, class of 1972)

Mike Vermette ('94) recently became a partner in his practice. He and Annmarie are going through the "pleasurable?" experience of building their first home. Michael says they "miss Seattle and welcome visitors to New Hampshire!"

Lou Landino ('70) is pleased to report that he has remodeled both the Southcenter and West Seattle clinics to begin the last third of his orthodontic career. He hopes this last part is as great as the first part!

Art Dugoni ('63) was presented the Ketcham Award by the ABO in 1994. At the same time he served as President of the American Association of Dental Schools. This year he was presented the Distinguished Service Award by the ADA. From 1992-95, Art has served on the Pew Commission for Health Care Reform.

Barry Beget ('73) just completed a "fabulous office remodel with unequalled help from Bruce Molen and Farrell Hinkle. October 18-November 8 Barry went on a medical mission with 119 others, setting up a MASH type operation in a very remote region with only suspension bridge access. This is an area of 251,000 people with no dentists. Barry worked on very rapid orthodontic treatment, "better known as exodontia."

Faculty Profile

SUE HERRING

Sue Herring is a busy woman. To put it mildly. Originally hired to replace Ben Moffett when he retired, Sue has filled the post of Acting Department Chair since Peter Shapiro resigned from the position in March. This temporary but formidable position is of course in

addition to her ongoing research. You may recall the picture of Sue on the cover of our last newsletter using a device the Association purchased ("What Have We Been Doing with Your Money?"). This device (DVRT) measures the deformation of soft tissues. When inserted into the TMJ disk of pigs, it measures how the disk deforms during chewing. We are happy to report that the use of this device helped Sue bring in a grant of \$200,000 from NIH.

Sue came to Seattle in 1990 from the University of Illinois Chicago, where she held positions as Professor of Oral Anatomy and Anatomy and Affiliate Professor of Biological Sciences and Dental Histology. Does she like Seattle? "I'm not freezing my toes off in the winter. What's not to like?" While Sue maintains that she has always been a preeminate coffee drinker, she can now lay claim to becoming a "mainstay of the latte industry." Not to mention microbrews and local wines!

Music is part of Sue's life as well; she plays both the violin and viola. (While she admits she has taken money from time to time, she claims she wouldn't call herself a "professional.")

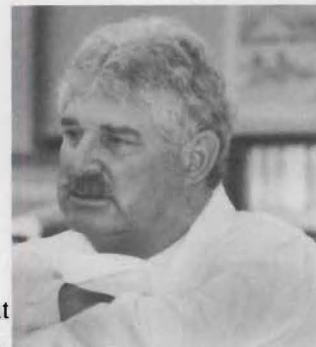

Perhaps it was fate that led our coffee connoisseur to the latte stand one special morning not so long ago. It was in the hallway that Sue met her husband, Dr. Norman Wolf, a medical school research VDM/PHD. The two married in May of this year, and honeymooned in New Mexico.

Listing Sue's achievements in total would take several newsletters in-and-of-itself, so we'll just mention a few highlights. She currently serves as President of the International Society of Vertebrate Morphology as well as Secretary/Treasurer of the Seattle Section of the International Assn. for Dental Research. Sue serves on the Editorial Boards of *Acta Anatomica* and *Journal of Dental Research*. She is an Associate Editor and member of the Publishing Board of *Growth*. She currently receives funding from NIH as well as NSF. She has several current publications in press and too many to mention in circulation.

We are happy to have Sue "guiding our ship" during this interim period. We raise our latte mugs in salute to our accomplished faculty Chair!

ROY GUNSOLUS

Here's a multiple choice question: Does this man (a) race sailboats; (b) collect and build model trains; or (c) regularly attend LaCrosse games? The answer: **ALL THREE PLUS MORE!** We are pleased to present our distinguished faculty member, **Roy Gunsolus.**

To say Roy has many interests is an understatement. His various activities may have been started in his early life. With a fighter pilot Dad, Roy and his family traveled over much of the USA, including Hawaii, then on to Japan, the Philippines, Midway, and Guam. He attended high school on Kodiak Island, but graduated from Bothell High School.

Having traveled so much during his childhood, Roy chose not to take advantage of a scholarship to Dartmouth, and stayed in Seattle to attend the UW. After graduating from dental school in 1969, Roy was stationed in Neuremberg, Germany for 3 years of service in the Army. He then attended UCSF for his orthodontic residency, subsequently working in the Bay Area in various associateships with Gene West, Don Colton, Wayne Watson and Earl Johnson.

In 1976, Roy married Barbara and moved back to Seattle, setting up practice in the Lake Union area. He then moved to the Northgate area, where he has been in practice since 1980, and on the UW faculty since 1983.

A devoted family man, Roy enjoys "lake living" with Barbara and their daughters, Turi, 16 and Kari, 13. He also enjoys spending time with 3-year-old Max and 1-month-old (born on his birthday!) Simone, grandchildren by his oldest son, Rob, 31. Vacations include sailing their Santa Cruz '50 throughout the San Juans and far into Canada through Desolation Sound. While Roy now enjoys long-distance cruising, he can lay claim to a couple of 1st place titles in the noted Swiftsure Race around Vancouver Island.

When he's not attending his daughters' volleyball and basketball games, Roy enjoys collecting G-scale model trains. He first became interested in them while in Germany riding the European rails throughout Europe. He says he needs another project "like a hole in the head" but is hoping to design and build the landscape and scenery for his models.

Honors for Roy include serving on the Seattle King County Dental Society Board of Directors, Pacific PCSO Board of Directors, Past President of WSSO, and currently serving on the AAO Council on Orthodontic Practice.

Roy says he doesn't like to be bored. We don't see much of a chance for that!

Alton Moore Lectureship

Features Birgit Thilander, Benjamin Moffett and the Class of '95

Attendees of the Fifteenth Annual Alton Moore Lectureship in June were in for a triple treat.

We were fortunate, once again, to meet at the Four Seasons Olympic Hotel in Seattle. The six graduating students provided a morning of inspiring presentations on the results of their research.

After a sumptuous luncheon banquet, attendees heard a fascinating account of Dr. Benjamin Moffett's (faculty) military activities during his service in Germany during World War II. Dr. Moffett and his wife, Dr. Leena Koskinen-Moffett (faculty), brought many articles of military equipment, and Dr. Moffett wore his original, unaltered uniform.

The day rounded out with Dr. Birgit Thilander, considered by many to be the "Godmother" of European orthodontics. Dr. Thilander holds a Professor and Chair position at the University of Goteborg in 1969.

Ben Moffett recalls his military days.

President Doug Cameron ('71) presents the permanent plaque to Dr. Birgit Thilander, featured speaker.

Bryan Williams ('79), Sam Lake ('81) and John Moore ('79).

Anna Law ('95), Anna's mom, Leena Omnell ('84), Anna's dad, and Richard Ferguson ('70).

Peter Shapiro ('73) and Doug Klein ('83).

Zeeny Teja ('91).

Bill McNeill ('64) & David Kennedy ('81).

STUDENT INFORMATION

Meet the 1996 Graduates!

JOHN ALEXANDER FREEMAN was born in Milwaukee, WI in 1967 and raised in San Luis Obispo, CA. He attended UCLA, where he presided over a ski club and fell in love with Joyce Rooney. After receiving a BS in Biology, he married Joyce, now a CPA, and moved to Seattle where he started dental school at the UW. In the spring of 1994, Joyce and John welcomed first baby, Alex. At the same time, John received his DDS and began the orthodontic program at the UW. He and Joyce are expecting a second child in April 1996. Upon graduation, Dr. Freeman and his family will take a slow sightseeing drive down the West Coast, eventually to San Luis Obispo, where John will set up his private practice and plans to join the part-time clinical faculty at UCLA.

DANIEL LANGFORD HALL was born and raised in San Diego, CA, graduating from high school in 1984. Venturing north for further education, Dan received a BA in Physiology from UC Berkeley. After a year of surfing and tutoring high school students in San Diego, Dan attended the University of the Pacific School of Dentistry, where he graduated with highest honors in 1993. Dan then married Kelly Ann Burnett, moving to Manhattan where he spent a year in a hospital-based general practice residency. Happily back on the west coast, Dan started the orthodontic program and welcomed baby girl, Courtney Grace during the first quarter. Upon graduation, Dan, Kelly, Courtney and dog Calvin plan to return to the San Francisco Bay area where Dan will associate with Dr. David Tillmanns and teach part-time at U.O.P.

SHANNON MAGNUSON was born in the San Francisco Bay Area. She attended the University of the Pacific in Stockton, CA for her undergraduate studies. Shannon then joined her husband, Tim Sweatman, in dental school at West Virginia University and received her DDS in 1994. Thrilled to be living in the northwest, Shannon and Tim plan to establish their practices in the Portland area, where Tim is presently an endodontic resident at Oregon Health Sciences University. Upon graduation, Shannon hopes to begin practice in Portland, but will first take a short European vacation with her mother to celebrate!

LAURENE MARKS was born and raised in East Brunswick, New Jersey. In 1990 she graduated from the State University of New York at Binghamton with a BA in Biology and Psychology. She attended the University of Pennsylvania School of Dental Medicine, where she received her DMD. Upon completion of the orthodontic program Laurene will vacation in Hawaii with her fiancé, before returning to the New Jersey area to pursue her orthodontic career.

ARNIE PITTS grew up in Reno, NV where he graduated from Reno High in 1982. He received his BS in Psychology from the University of Utah, where he minored in downhill skiing. After working in a practice management firm for several years in Santa Barbara, Arnie moved north to San Francisco. He attended the University of the Pacific School of Dentistry and graduated Valedictorian in 1994. After completing the UW orthodontic program Arnie, his wife and their daughter will move to Reno where Arnie will practice with his father, Tom Pitts (class of 1970).

JACQUELINE R. WILSON grew up in Arcadia, CA, where she graduated from high school in 1987. She received her BS from the University of Southern California in 1991. In 1994, Dr. Wilson received her DDS and was class Valedictorian at USC School of Dentistry. During that time, Jacqueline was a clinical instructor in the Dental Hygiene Department, and worked on weekends in pediatric, general dentistry and orthodontic practices. Upon completion of the program in June, Jacqueline is planning an extended stay in France before returning to southern California to pursue private practice and join the faculty at USC.

1997 Reunion Plans are Underway!

Start planning now to attend our 48th Anniversary Reunion, July 25-29, 1997 at the Westin Hotel in Seattle. President-elect Bruce Hawley ('77) is working with Program Chair Stan Hall ('79) to create a wonderful mix of educational sessions and get-togethers for everyone. The Reunion has been organized around a weekend to minimize scheduling hassles and give families a chance to fully enjoy Seattle's summer fun! Reunion registration packets will be included in the next newsletter - we look forward to seeing everyone there!
