## 2001 Reunion Combines New Technology and Old Friends...

The 2001 UWOOA Reunion brought an international gathering of alumni and faculty together. A great time was had by all! For the first time, attendees were treated to a new and unique experience. They participated in *interactive* scientific sessions. Program Chair Stan Hall brought an audience response system to the program, allowing participants to involve themselves in scenarios presented by the speakers. Discussions and questions were promoted through the use of this system and the participants' reaction was extremely positive.

Here we catch up with some of the reunion attendees. Thanks to those who submitted the great pictures!

## 2001 Reunion....

**Gary ('81) and Christine Wolf enjoy the afternoon cruise with kids Lauren and Adam**

**Geoff Greenlee ('2000), Jackie Kurth ('99) and Tamara Justus ('99) enjoy the luncheon before the General Business Meeting**

**Dodie (l) and Robert ('68) Janisch join Barbara and Jim ('73) Elder before the evening banquet**

## 2001 Reunion....

**Bill McNeill (l) ('64) meets up with Dale Bloomquist and Heidi Horwitz ('01) for the pre-banquet reception**

**Bruce Hawley ('77) congratulates Milo Hellman award winner and reunion speaker Steve Noxon ('2000)**

**David Turpin (l) ('66) joins Yolanda and Roberto ('68) Justus at the banquet dinner**

**Two winning smiles! Cher and Foster Bucher ('80) cuddle up after the banquet**

## 2001 Reunion....

**Bruce Molen (l) ('72) and Ward Damon ('75) say goodbye to their posts as UWOAA Board Members, having served and helping to guide the UWOAA for many years. Bruce and Ward have been instrumental in providing excellent information to the Board as well as the general membership of the UWOAA. We'll miss you!**

**At the business luncheon, Eugene Supernaw ('55) graciously presents Greg King and the Department with books left to him by Dr. Dick Riedel: an original textbook by Calvin Case and Dr. Riedel's original master's thesis from Northwestern University.**

**Rick Garfinke ('73) and Karla Green enjoy the reception before the banquet**

**Thien Bui (l) ('90) chats with Marc Joondeph ('76) during the afternoon cruise**

## Message from the UWOAA President Tim Shields

Greetings from Seattle! I just attended the Twenty-first Alton Moore Lecture, and I am pleased to report that the caliber of the Class of 2001 is outstanding and the quality of the research continues to be excellent. Those of us in attendance, including Dr. Al Moore, were quite proud of the group. The Class of 2001 is the first class of the extended month program, hence our first fall Thesis Day. Following our luncheon at the Four Seasons, outgoing Dental School Dean Paul Robertson spoke on Patterns of Orthodontic Care in Washington. Please plan to support and attend next year's Alton Moore Lecture.

In September, the UWOAA hosted its annual senior "box luncheon." Greg King, Ward Damon, Carol Knaup, and I met with the graduating students to share some of the history of the Alumni Association and to enlighten them as to how we support the Department. We encouraged them to participate in the Alumni Association as they develop their practices. We hope to continue this enjoyable tradition in the coming years.

An outstanding time was had by all at the Alumni Reunion this past July at the Seattle Sheraton. Many thanks to Stan Hall, Program Chair, and the wonderful faculty speakers. The format Stan selected was quite high tech - we used an audience response system to register in real time our answers to questions posed by the speakers. This required a different approach for the speakers, so our use of the system helped "wet the feet" of our faculty who will surely be asked to use the system at other venues. We were able to fit in a great Lake Washington cruise and a windy round of golf at Newcastle on Saturday after the morning lectures. As always, it was nice to make new friends and renew old acquaintances. I hope see all of you back in Seattle for the 2005 Reunion!

Thanks again to all that have contributed donations to the Alumni Association this past year. Our board currently controls \$550,000 in our "Endowment Fund." This is our core "war chest" - money that we use to directly support the orthodontic department for such things as student research projects and equipment such as computers. Currently, the funds are safely invested in bonds and other interest bearing accounts. We are able to continue building on the principle as Greg King continues to find other monetary sources for the Department. This "war chest" mentality enabled us to quickly tap the Endowment Fund for \$250,000 last year when the opportunity arose to garner a matching

\$250,000 from the State to fulfill Peter Shapiro's vision of the Moore/Riedel Endowed Chair in Orthodontics. Currently the fund is at \$800,000, and total pledges for the next four years should take it to 1.5 million dollars. We anticipate inaugurating the Chair with an outstanding orthodontic professor in 2006. While the Department will invite prospective orthodontists to fill the chair, it is important to make the distinction that the Moore/Riedel Fund is now managed by the University. As such, they control and invest the money in their general pool of funds, as well as insuring that the funds are strictly disbursed only for support of the chair. This simply underscores our Alumni Association's continued need to independently maintain our Endowment Fund to meet current and future needs of the Department. This winter your Board will conduct strategic planning on how we can best support the Department and what our future funding needs will be.

The Board continues to keep separate your generous donations to the Endowment Fund and your dues to the Association. The dues cover typical operating expenses such as printing, our Executive Director's salary, Board meetings, PCSO and AAO receptions, etc. In contrast to national charitable organizations where operations are funded by a sizable portion of the donations, we strive to put 100% of the charitable donation towards departmental support. Presently there is no need to increase the dues for 2002, and to reduce any future increases, everyone please be sure to contribute by paying your dues today.

Its time to plan now for the 2003 Clinical Update in beautiful Playa del Carmen (Cancun), Mexico. The lectures are led by the distinguished faculty of our Orthodontic Department. This will be my fourth Update and they consistently are one of the most rewarding meetings both educationally and socially. The format is excellent. The seminars finish by late morning on Monday through Friday with Wednesday free, so there is plenty of time to relax, enjoy some fun in the sun, golf or whatever suits your fancy. Look for more information next spring!

Let me close by acknowledging the contributions of Ward Damon, Diane Doppel, and Bruce Molen as they completed their terms on the Alumni Board this summer. And a special thanks to Bruce Hawley as he continues on the board for another four years as the Immediate Past President.

Happy Holidays! Tim

## Message from UW Department Chairman Greg King

Once again, the ADA accreditation process is upon us. We will have our site visit in November 2002. Assessing how well we are doing with what we are trying to do in our graduate program is an important part of this accreditation process. Certainly we are enormously proud of the successes of two of our recent graduates who won national awards in areas that are often cited by programs as part of their accreditation outcomes. Jackie Kurth won the Shepherd Award in 1999. The ABO gives this for the highest score on the ABO written examination. In 2000, Steve Noxon won the Milo Hellman Award, given by the AAO for the best research thesis. These successes represent highs, but don't really tell us much about the program in general. In order to get a more general overview, we decided to find out just what those who graduated from the program during the last decade felt about their experiences here at UW. We thought that you might be interested in the results. We received responses from 64% of our alumni who graduated in the last decade. We asked questions in 7 categories: general issues, biomedical, clinical, general competencies, technical competencies, practice management, judgement and ethics. We also asked the respondents to give us an overall grade as well as overall grades in teaching, research and practice. The mean responses were ranked from the best to worst in each category.

Overall, our recent graduates gave the program pretty high marks, with the weakest area being preparation to teach. We have begun to try to remedy this in the new curriculum, with scheduled experiences lecturing to the dental undergraduates, leading small seminars and teaching in undergraduate labs.

Under general issues, we rated in the good category with the departmental faculty and administration doing the best and the level of support available from staff and physical facilities doing the worst. Last year, we created a computer lab in the clinic, and began centralized scheduling. The students now have their own laptops and all imaging is now digital. As you know, computerization is a particularly challenging area for keeping abreast of innovations, but we will need to continue to invest in it. The students now work in teams with each team having a dental assistant. The entire clinic also now has a patient care coordinator. We remain in a clinical facility that is in dire need of renovation. Acting Dean Jim Steiner has

informed me that the school will be proceeding with plans to renovate the entire B wing, so this problem may be resolved soon.

In the biomedical sciences, we rated in the above average-to-good category, doing best in anatomy, biochemistry and growth. Next year we will be adding a course in molecular biology to the first quarter curriculum. We need to address issues related to teaching methodologies. Our recent students seem to be doing quite well with using computer technologies to teach but we may need to improve in the utilization of the Internet in teaching and research.

In the clinical sciences, we have significant strengths in the areas of diagnosis, treatment planning, interdisciplinary treatment, photography, orthognathic surgery and adult treatment. However, some of the areas where we may need to improve are biomaterials/ biomechanics, practice management, TMD treatment, risk management and the use of functional appliances.

On average, we do quite well in the general and technical competency categories, but have some significant failings in how we manage our clinical practice. For much of the decade, our graduate clinic has been working more like a dental school than an orthodontic practice. This situation needs to change and has begun to change with the addition of things like the team approach, increased auxiliary staffing and centralized scheduling. We need to continue to move in this direction by taking advantage of the significant expertise in orthodontic practice management that exists in our faculty.

Our faculty seems to have been quite successful communicating good judgement and high ethical standards to our graduates. This did not surprise us.

In my view, this is quite a good report card. In general, our students feel that they received a high quality education with no question rating a below average score. However, we can do better. The importance of this survey is that it points toward some areas where we can put our efforts.

I'd like to close this message by thanking the entire faculty and staff who give their time and energy to our efforts. In my view, they deserve the praise for these results. I'd especially like to thank our recent alumni who took the time to fill out and return this rather lengthy questionnaire. It will be an important element in our self-study document.

# Contributions Update...

## CONTRIBUTIONS UPDATE

Your continuous and generous contributions have been the foundation for Association support to the UW Orthodontic Department. Alumni have asked about how their contributions are received and credited by the Association. Here is a brief breakdown:

### TYPES OF CONTRIBUTIONS

1. *Contributions to the UW Orthodontic Alumni Association.* Tax deductible checks are made out to the UWOAA and mailed directly to the Association. Credit toward "club" level is given upon receipt of the check. The donation may be directly from an alumnus or on the behalf of an alumnus by another person, such as a referring dentist. The donor receives tax credit and the alumnus receives club credit. The person contributing must indicate the name of the alumni member who should receive credit to their club level. Contact Joni Marts for "In lieu of" forms to facilitate others donating on your behalf.

2. *Contributions directed to specific funds at the UW.* Tax deductible checks are made out to the University of Washington and mailed to the Department of Orthodontics, specifying which fund the monies are to be directed (see below). The Fund Development Office then receives and processes these funds for the Department and reports their receipt to the UWOAA. The Association then gives Club credit to the UW alumni contributors. As above, another individual may donate on behalf of an alumnus directly to a specified fund and receive the tax deduction. Checks should be sent to the UW Orthodontic Department. Also, the donor should indicate which alumnus should receive credit for club status.

### MAILING CONTRIBUTIONS

*Donations going directly to the UW Orthodontic Alumni Association should be mailed to:*

UW Orthodontic Alumni Association  
P.O. Box 31553  
Seattle, WA 98103

*Donations going to UW-specified funds should be mailed to:*

University of Washington  
Dept. of Orthodontics  
Box 357446  
Seattle, WA 98195

## UWOAA AND UW FUND CATEGORIES

*UWOAA:* Monies to the Association support the ongoing activities and needs of the Department including research.

*Kokich/Shapiro Fund:* Monies from this fund support visiting scholars.

*Moore/Riedel Fund:* Monies from this fund support the Moore/Riedel endowment for a Chair in Orthodontics.

*Memorial Fund:* Monies from this University fund support student research.

## CLUB CONTRIBUTION LEVELS

### **Chairman's Circle (\$10,000+)**

Framed certificate and plaque  
Name engraved on plaque in the Founders' Room  
Reprints of Departmental publications  
Fee Optional at the Alton Moore Lectureship  
Guest at the faculty study club meetings  
Guest of the Chairman at the annual graduation reception  
Recognition Gift

### **Founder's Club (\$5,000+)**

Framed certificate and plaque  
Name engraved on plaque in the Founder's Room  
Reprints of Departmental publications  
Fee Optional at the Alton Moore Lectureship  
Guest at faculty study club meetings  
Recognition gift

### **Century Club (\$1,000+)**

Framed certificate and plaque

## *Is someone donating on your behalf?*

It's important that we know that so you can receive proper club credit and kudos along the way! Please encourage anyone you know who might be indicating a generous gesture on your behalf to mention your name to us. This is also extremely important for contributions going directly to the Moore/Riedel Fund, Orthodontic Memorial Fund, or any other contribution sent to the Office of Development at the UW.

# 2003 Clinical Update - Join Us on the Beautiful Mexican Riviera!

MARK YOUR CALENDARS NOW!

March 24-28, 2003  
Playa del Carmen (Cancun)  
Iberostar Queztal (all-inclusive resort!)

Attend great scientific sessions  
Party with your friends  
Visit the Mayan ruins  
Play with the dolphins at the ecopark  
GOLF!  
SHOP!  
RELAX!  
More details to come this spring....

## **THE FAMOUS RIEDEL ARCH FORMER!**

As many of you know, Dr. Dick Riedel was known for his dexterity and his rather large hands. The students in the class of 1969 had the creative foresight to take a plaster cast of Dr. Riedel's famous "arch former" thumb and it has now been preserved in bronze, thanks to the casting genius of Dr. Don Gardner. With the blessings (and chuckles) from Mrs. Marie Riedel, the UWOAA now offers the Riedel Arch Former to you!

**Please send your check for \$50.00 to  
UWOAA  
P.O. Box 31553  
Seattle, WA 98103**

## **HISTORY ON TAPE - ORDER YOURS NOW!**

Those of you who attended the June 9, 2000 Alton W. Moore Lectureship know what a special day it was. Here's a chance to keep that memory on videotape. "Reminiscence and Reflections" brings 50 years of orthodontic history into perspective as Dr. Alton W. Moore joins Drs. Peter Shapiro and Donald Joondeph in an unforgettable afternoon.

**Please send your check for \$50 to  
UWOAA  
P.O. Box 31553**

## Let's Catch Up...

**Art Dugoni ('63)** continues his distinguished career by receiving the PCSO 2001 Award of Merit at the Annual Session of the PCSO in Honolulu on September 30. As a longstanding leader in orthodontics, Dr. Dugoni has been recognized worldwide with such honors as the 1995 ADA Distinguished Service Award, and election to the FDI World Dental Federation List of Honour in 1998. Congratulations Dr. Dugoni!

The Class of 2002 shows it's sunny side at Halloween: (l) Nicole Connors, Karen Clements, Judy Chen, Perry Ormiston, Nan Hatch

**You Will Be Missed...**  
Franklin Piacentini,  
Class of 1961

Aloha! Camille VanDevanter (l) ('91) joins Mike and Rebecca Poling ('84) and Tim Shields ('83) at the UWOAA Reception in Honolulu

**Jen and Steve ('2000) Noxon** became proud new parents of Jared Robert Noxon on November 2. Contrary to nasty speculation, he "wasn't even wearing a Buffalo Bills helmet or a UCONN basketball jersey. He was completely naked!"

## Faculty Profile

### Greg Huang

As Acting Assistant Professor, Greg has a keen interest in research, which includes orthodontic outcomes and stability, open bite, and TMD. He recently applied for a 5 year grant from NIDCR to investigate third molar removal as a risk factor for TMD.

Educated at Emory University, Greg graduated with his DMD and moved to the UW for his orthodontic program, graduating with an MSD in 1987. He then practiced for ten years in Florida, and taught part-time for eight years at the University of Florida.

Greg returned to Seattle in April, 1999. He then obtained his Master of Public Health, concentrating in Epidemiology, in March, 2001. As Greg puts it, "This training has been very helpful with knowledge of study design for clinical studies, as well as providing a good biostatistics background. During this time, I received a training grant from the Department of Dental Public Health Sciences."

Most of Greg's family resides in Florida, where his father is a retired pediatrician. He also has two other brothers who live in Florida, and one brother who lives in Seattle.

While Greg is very busy with teaching, research, and faculty practice, he does enjoy life beyond medicine. When time permits, Greg indulges in photography, racquetball, hiking, and piano.

Greg recently married Shu-Fen, who is from Bellevue, WA. They "hope to start a family soon." Keep us posted, Greg!

### John Moore

John's face probably looks familiar... It should - he's been an integral part of the UW Graduate program for over 22 years. Of course we all know his father, the wonderful namesake for our annual Alton Moore Lecture and now the Moore/Riedel Endowed Chair Fund. (John is happy to report that both of his parents are doing well

- we're glad to hear that, John!)

John received his undergraduate and graduate degrees here at the UW, graduating in 1974. He then spent a year at Eastman Dental Center and 2 years private practice with Dr. Don Compaan. In 1979 John graduated and immediately went into practice with another great name in orthodontics: Dr. Dick Riedel. He also had the opportunity to work with and learn from the likes of Gerry Dohner, Bob Kemp, Peter Shapiro and Bill McNeil.

John claims that having taught for last 22 years primarily in the Adult Ortho Clinic & Seminar "has been as much a learning experience for me as it has been for the students." He has worked with "numerous faculty such as Al VanNess, John Ive, Jon Artun and Vince Kokich. This has enabled me to meet and get to know virtually all our graduate students over the past 22 years, which has been a real treat."

On the personal side, John has been married to Laura for 26 years and living in Northeast Seattle. Their oldest daughter, Hillary, is in her last year of college at Scripps studying fine arts. Youngest daughter Alissa is a junior at Roosevelt High School and involved in numerous activities. Speaking of activities, how's the golf game John?

## 2001 Graduates and Dr. Paul Robertson Combine to Make the 22nd Annual Alton Moore Lecture a Great Day for All...

Altogether now..... (l) Greg King, Guest Speaker Dr. Paul Robertson, UWOAA Treasurer Bryan Williams, Dr. Alton Moore, UWOAA Vice President Charlie Gilmore, UWOAA President Tim Shields

Oh - happy day! The Class of 2001 teams up at the lecture. From left: Derek Damon, Heidi Horwitz, Charlie Hall, Nick Salome, Burleigh Surbeck

2001 Alton Moore Lecture...

All smiles during the morning break -  
John Moore (l) ('79) and Doug Cameron ('71)

Brett ('92) and Susan Fidler enjoy the evening  
reception at the Seattle Tennis Club

New UWOAA Board member and new mom  
Elizabeth Lyons ('2000) joins mom-to-be  
Jennifer Ashmore ('2000) for lunch

Hugh (l) (faculty) and Joan Sobottka join Dave ('66) and  
Judy Turpin at the Tennis Club reception

## Meet Our 2002 Graduates

**Judy Chen** was born Jan 2, 1973 in upstate NY to my parents who had recently left Taiwan to pursue their graduate studies. I was raised in Cedar Grove, NJ and remained in the Northeast for college (MIT '94), a Masters' in Epidemiology (Harvard '96) and dental school (Columbia '00).

It wasn't until I was applying for ortho that I was lured out West by the reputation of the UW program. It's been a big change from the concrete of NYC. I've been dabbling in new outdoor activities such as golf, hiking, biking and snowboarding. So far, I am still a runner at heart and have spent the last few months training for the Seattle (half) marathon. My indoor interests include cooking, playing piano, and taking care of Tully. (He's my newly adopted lop-eared rabbit whose Class III malocclusion requires frequent trims.)

My fiancée, Tom Rohdy, recently moved from Portland to join me. We were classmates at Columbia and now he's working as an associate in general dentistry. We will be getting married May 2002 and would like to settle down in the Seattle area. I am looking for the opportunity to associate and/or buy into an existing practice.

**Karen Clements** hails from Los Altos, California. She completed her undergraduate studies at UC San Diego, where she double majored in animal physiology and psychology. Karen attended dental school at the University of the Pacific. While California has been a big part of Karen's life, she really likes the Seattle area and is "thinking about staying" and practicing right here in the great Northwest. While considering her options here after graduating, Karen enjoys volleyball, skiing, and spending time outdoors.

**Nicole Connors** is originally from Massachusetts. She received her BA in History from Dartmouth College in 1994. She then went on to the University of Louisville where she obtained her DMD. Nicole hopes to practice in the Bay Area upon completion of her residency. She enjoys skiing, hiking, tennis and ice hockey.

**Nan Hatch** spent her undergraduate work at Tufts University focused primarily on social and developmental psychology, which Nan says "left me unclear in regards to my next career move. As a result, I moved to the Colorado Rockies to ski. During this year of skiing I decided to join the world of health professionals, and apply to dental school. Almost a year to the day I left, I found myself back at Tufts, taking the required course work for applying to dental school."

At that time, Nan began work as a technician in a molecular biology lab at Brigham and Women's Hospital in Boston. After two years of part time school, part time lab technician, she began training at the Harvard School of Dental Medicine, while continuing to pursue her interest in scientific research working part time in the lab of Dr. Bjorn Olsen.

During her third year of dental school, Nan fell in love with orthodontics subsequently found herself at the UW. Nan is simultaneously pursuing a Ph.D. in the molecular and cellular biology program of the University of Washington. Her thesis project(s) are focused on the etiology of craniofacial abnormality syndromes. In her spare (spare?) time, Nan enjoys the skiing and, in the warmer months, hiking and sailing around the sound on her fiancée's 20 foot sail boat. After completion of the orthodontic residency program, Nan will work one day a week in the UW faculty practice while she finishes her Ph.D. Ultimately, her ideal career will involve research, teaching, and part time clinical orthodontics in a faculty practice or associates-ship position.

**Perry Ormiston** is a Washington native, born in Yakima and raised in Spokane. He completed his undergraduate work at Washington State University in business administration. After graduating in 1989 he worked in management for a cargo airline and as a pharmaceutical representative. After returning to Washington State University to complete his science pre-requisites, he attended dental school at the University of Southern California. Perry is married, and has one daughter with another on the way. After completing the orthodontics program, Perry plans to practice somewhere in the Puget Sound area.

## MARK YOUR CALENDARS

May 2002	UWOAA Reception at AAO, Philadelphia
October 2002	UWOAA Reception at PCSO, Monterey
November 1, 2002	22nd Annual Alton W. Moore Lectureship

## Your Officers & Board of Directors

### OFFICERS

<b>President</b>	Timothy Shields ('83)
<b>President-Elect</b>	Charles Gilmore ('83)
<b>Secretary-Treasurer</b>	Bryan Williams ('79)
<b>Past-President</b>	Bruce Hawley ('77)

<b>Department Chair</b>	Greg King
<b>Executive Director</b>	Joni Marts

### BOARD OF DIRECTORS

Stan Hall ('79)
Carol Knaup ('93)
Doug Knight ('95)
Elizabeth Lyons ('00)
Camille VanDevanter ('91)
Heather Woloshyn ('93)

*Please contact Joni Marts with any questions, comments, or updates.  
We value your opinions and news! Thank you.*
