MOORE & MORE!

**Great Theses Presentations, Wonderful Speaker, and
"Changing of the Guard" Help Make
The 2004 Alton W. Moore Lectureship Special**

Dr. Alton Moore enjoys his namesake lectureship with guest lecturer Peter Sinclair ('81) and Department Chair Greg King

Presidents Unite! These great leaders have collectively helped steer the UWOAA Board in the right direction for over a decade!!! From left: New President Charlie Gilmore ('83), Past President Bruce Hawley ('77), and Immediate Past President Tim Shields ('83).

The 2004 Alton Moore Lectureship and Thesis Day was jam packed with superb presentations by our 2004 Ortho graduates, a world-class presentation by Guest Speaker Peter Sinclair ('81), approval and installation of new UWOAA Board and officers, and a wonderful reception to bring graduates and families together. Dr. Alton Moore's presence made the day even more special as this wonderful educational tradition continues.... (pictures inside!)

Inside.....	Page
Alton Moore Lecture Brings Change of Officers as Well!	1
UWOAA President's Message: Dr. Charlie Gilmore	4
Department Chairman's Message: Dr. Greg King	5
You Will Be Missed...	13
Let's Catch Up!	14
Faculty Profile: Dr. John Denny	19

Alton Moore Lectureship...

UWOAA Executive Director Joni Marts shares a hug with “The Grand Poobah” himself, Dr. Alton Moore.

A Day off for two busy offices! Mike Fey ('78) and daughter Kristina Grey ('78) of Fey & Grey Orthodontics join Roy Gunsolus (Faculty) and Elle Lyons ('00) of Gunsolus & Lyons Orthodontics.

Irena Baker (Faculty), Bill McNeill, ('64), Camille VanDevanter ('91) enjoy the reception.

Who can resist ice cream—or these smile guys! Brett Fidler ('92) and Dan Taylor ('80) enjoy a sweet break.

Stephanie Kavanaugh ('85) and Sam Lake ('81) chat during lunch.

Alton Moore Lectureship...

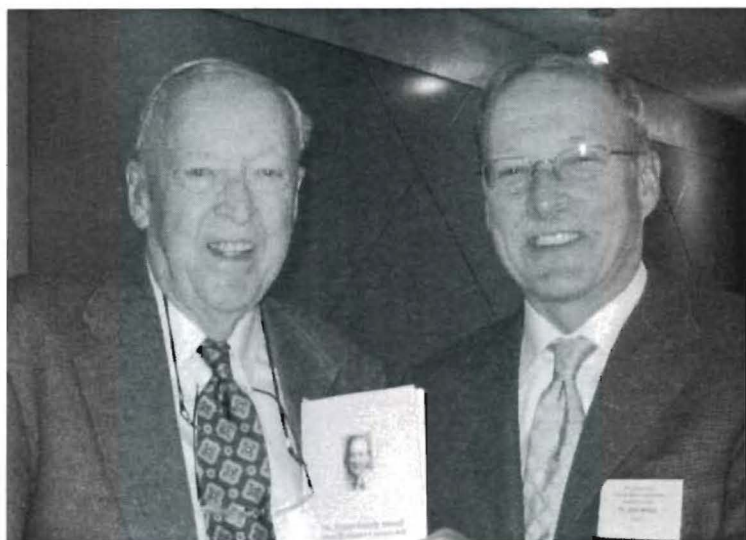

Gary Nordquist ('72) and Jim Elder ('73) enjoy the morning break.

Grads and Dads! Burleigh Surbeck ('01), left, talks about impending fatherhood with new grad Michael George. Burleigh's a pro now with two little ones, and Michael is now too, with the arrival of Carmichael George just weeks after the lecture!

Doug Cameron ('71), Doug Knight ('95) are all smiles.

Alton Moore and son John Moore ('79) enjoy the day together.

Jeff Theis ('03), Lena Omnell ('84) share a smile and lunch.

Message from the UWOAA President Charlie Gilmore

Greetings from the board of directors of the UW Orthodontic Alumni Association. I am honored to have been selected by the board to serve as president of UWOAA for the next three years. The board is dedicated to careful management of your dues which operate the association and your donations to the endowment fund which provide support to the department and enhance the educational experience for the orthodontic residents.

The 24th Alton Moore Lectureship was presented Friday, November 19, 2004. This year we moved to the beautiful modern Bell Harbor International Conference Center on the Seattle waterfront. We enjoyed spectacular views across Elliott Bay during our catered lunch. The room for the presentations was very well set up with great acoustics. Easy access and free parking made for rave reviews by all who attended. The day was made even more special by the presence of Dr. Alton Moore. The five graduate residents presented their research in the morning session. The quality of the graduates and their research efforts were both outstanding. We can all be proud of our new alumni.

The afternoon lectureship was presented by our fellow alumnus Peter Sinclair (81) who is Director of the Orthodontic Program at USC. He gave us a fascinating look at "A Three Dimensional Future of Orthodontics" and "Predicting and Preventing Root Resorption". A reception followed for all attendees to meet the new graduates. Chairman Greg King handed out Certificates to each of our five new graduates.

The UWOAA business meeting was held during the Alton Moore Lectureship. The primary topic was election of new board members. The new members nominated by the board and elected by the membership to serve six year terms were Richard Garfinkle (73) and Burleigh Surbeck (2001). In accordance with the association bylaws, officers were elected and two members were selected to fill unexpired terms of three years, Greg Huang (89) and Heidi Horwitz (2001). Heather Woloshyn (93) was elected treasurer/president-elect. Continuing on the board are Tim Shields (83) immediate past-president, Camille VanDevanter (91) and Elle Lyons (2000).president-elect.

On behalf of the UWOAA I want to express great appreciation to the many alumni and friends who have given their time and energy to making this one of the very best Orthodontic programs and a successful alumni association. Special thanks to those members who are going off the board this year. Bruce Hawley (77), has served you for almost 20 years, most recently as immediate past-president. Bruce has been a really significant part of this organization. We will miss him and his excellent consul. Bryan Williams (79),

who has served for many years and as secretary-treasurer for the past three years, Carol Knaup (93) and Stan Hall (79). Each deserves our sincere appreciation for their efforts on behalf of our profession and the UW.

Great things are happening at the University of Washington. We have a new UW President, Dr. Mark Emmert who is a native of Tacoma, Washington. He counts several well known local dentists among his long time friends. He is very supportive of remodeling of the dental school as proposed by Dean Martha Somerman. More than 40% of the \$22 million for the dental school campaign had been raised by the October 15, 2004 kickoff of the university-wide fund raising campaign. UWOAA plans to raise funds for a portion of the Orthodontic Clinic remodel and expansion. The excellent quality of the UW program will be greatly enhanced by a modern clinic for both students and faculty.

Thank you to all have contributed the UWOAA endowment fund or directly to the UW for the Moore-Riedel endowed chair or the Kokich-Shapiro visiting scholar fund. The UWOAA endowment currently has over \$700,000 which generates income used to support student research and enhancements to the educational experience of the students. This funding for the department is essential to continue to attract the students and faculty that has generated the well deserved reputation of the UW as one of the very best programs in the world. As a fellow alum commented to me at a meeting recently, "It makes me proud to be a graduate of a program whose research is so often cited at these scientific presentations." Thanks to Chairman Greg King and the entire faculty (both part-time and full time) for their commitment to orthodontic education and the UW Orthodontic Department.

Make plans now to attend the 2007 AAO annual session in Seattle. UWOAA is planning a special reception during the meeting. Former chairman Don Joondeph will be AAO president at that time. Also watch for and attend UWOAA receptions at the upcoming AAO in San Francisco (May 2005) and PCSO in San Diego.

Charlie Gilmore (83)
UWOAA President

Message from UW Department Chairman Greg King

"Evidence-based practice" is an expression we've heard a lot lately. The idea is worthy. Clinicians should use sound evidence to make clinical decisions on patient care. Unfortunately, the quality of evidence available to us on many important clinical questions is low. The *Future of Dentistry Report* published by the ADA in 2002, recommended that national clinical research networks be established that link treatment approaches and outcomes in private practice settings. Recently, NIDCR took up this challenge by issuing a request for proposals to establish practice-based research networks (PBRN's). The goal of this initiative is to fill the evidence gap by providing an infrastructure for answering important clinical questions faced by dentists on a daily basis. Unfortunately for orthodontics, this first initiative targets issues of relevance to general dental practice. However, we have the expectation that this will change once we obtain more experience with concept and implementation issues. Clearly, orthodontics should begin to think seriously about how this approach might be applied to our questions.

The PBRN idea is based on establishing partnerships between practitioners and experienced clinical investigators. Such partnerships would offer many important advantages over current practice in clinical research. PBRN's could enhance the clinical research agendas of both the NIDCR and others with an interest in dental research; they would produce findings that would be immediately relevant to practitioners and their patients; PBRNs would be able to support a variety of clinical studies with clear and easily defined outcome measures; they would draw on the experience and insight of practicing clinicians to help identify and frame research questions; because the research will be conducted in the real-world environment of dental practice, results may be readily accepted by practitioners and translated into daily practice; because PBRNs would use existing personnel and infrastructure of established dental practices, certain types of clinical studies could be done in a cost-effective manner. Clinicians would have a new opportunity to participate in meaningful research relevant to their practices. The participating university-based clinical researchers would have access to new potential subjects and possible research projects for faculty and graduate students. This might be reflected in improved recruitment and retention of clinical faculty members. The approach clearly seems to be a "win-win."

The infrastructure would consist of administrators; personnel to coordinate and manage the network and community based practicing dentists who would implement the research protocols. A menu of protocols designed to answer key questions would be ongoing and generated from various sources, including the members of the network administration, participating dentists, funding agencies and other stakeholders. Researchers and clinicians would develop the proposals. The network would provide for peer review, facilitate Human Subjects approval and create federally mandated Data and Safety Monitoring Boards. The community-based clinicians would do subject recruitment and initial data gathering while data entry and analysis would be done by the experienced clinical researchers. All participants would do report writing and presentations.

Establishing these networks poses many significant challenges, including communication, coordination and calibration. We are excited about the possibility of having PBRN's established at several universities around the country and hope that orthodontics will be able to participate in the future. We should be able to learn from their experiences.

In his message to Congress, the Director of NIDCR states "To achieve our goal of improved oral health for all people, NIDCR must ensure that research advances are translated and adopted into clinical practice. Many of the unique questions faced by dental health professionals on a daily basis are most appropriately addressed in dental practice settings, among unselected patient populations. Practice based research networks can generate important and timely information to guide the delivery of health care and improve patient outcomes." We believe that this approach may be a major step on the road to advanced evidence-based orthodontic practice.

Greg King, Chair
UW Department of Orthodontics

Contributions Update...

CONTRIBUTIONS UPDATE

Your continuous and generous contributions have been the foundation for Association support to the UW Orthodontic Department. Alumni have asked about how their contributions are received and credited by the Association. Here is a brief breakdown:

TYPES OF CONTRIBUTIONS

1. *Contributions to the UW Orthodontic Alumni Association.* Tax deductible checks are made out to the UWOAA and mailed directly to the Association. Credit toward "club" level is given upon receipt of the check. The donation may be directly from an alumnus or on the behalf of an alumnus by another person, such as a referring dentist. The donor receives tax credit and the alumnus receives club credit. The person contributing must indicate the name of the alumni member who should receive credit to their club level. Contact Joni Marts for "In lieu of" forms to facilitate others donating on your behalf.

2. *Contributions directed to specific funds at the UW.* Tax deductible checks are made out to the University of Washington and mailed to the Department of Orthodontics, specifying which fund the monies are to be directed (see below). The Fund Development Office then receives and processes these funds for the Department and reports their receipt to the UWOAA. The Association then gives Club credit to the UW alumni contributors. As above, another individual may donate on behalf of an alumnus directly to a specified fund and receive the tax deduction. Checks should be sent to the UW Orthodontic Department. Also, the donor should indicate which alumnus should receive credit for club status.

MAILING CONTRIBUTIONS

Donations going directly to the UW Orthodontic Alumni Association should be mailed to:

UW Orthodontic Alumni Association
P.O. Box 31553
Seattle, WA 98103

Donations going to UW-specified funds should be mailed to:

University of Washington
Dept. of Orthodontics
Box 357446
Seattle, WA 98195

UWOAA AND UW FUND CATEGORIES

UWOAA: Monies to the Association support the ongoing activities and needs of the Department including research.

Kokich/Shapiro Fund: Monies from this fund support visiting scholars.

Moore/Riedel Fund: Monies from this fund support the Moore/Riedel endowment for a Chair in Orthodontics.

Memorial Fund: Monies from this University fund support student research.

CLUB CONTRIBUTION LEVELS

Chairman's Circle (\$10,000+)

Framed certificate and plaque
Name engraved on plaque in the Founders' Room
Reprints of Departmental publications
Fee Optional at the Alton Moore Lectureship
Guest at the faculty study club meetings
Guest of the Chairman at the annual graduation reception
Recognition Gift

Founder's Club (\$5,000+)

Framed certificate and plaque
Name engraved on plaque in the Founder's Room
Reprints of Departmental publications
Fee Optional at the Alton Moore Lectureship
Guest at faculty study club meetings
Recognition gift

Century Club (\$1,000+)

Framed certificate and plaque

WANT TO GET AIR MILES AND MAKE A CONTRIBUTION AT THE SAME TIME? YOU CAN NOW CONTRIBUTE WITH YOUR VISA OR MASTERCARD! CHECK WITH JONI ABOUT DETAILS.

Is someone donating on your behalf?

It's important that we know that so you can receive proper club credit and kudos along the way! Please encourage anyone you know who might be indicating a generous gesture on your behalf to mention your name to us. This is also extremely important for contributions going directly to the Moore/Riedel Fund, Orthodontic Memorial Fund, or any other contribution sent to the Office of Development at the UW.

You Will Be Missed....

William Gilmore ('50)

Laurence "Buck" Mabbutt ('78)

Jerrold Meinhold ('57)

Herman Wilbrand ('84)

Dr. William Gilmore ('50)

Dr. William A. Gilmore died unexpectedly December 4, 2004 at his home in Yakima, WA. He was born May 27, 1920 in Seattle. He graduated in 1943 from Northwestern University Dental School in Chicago and was immediately inducted into the US Army. He served with the 8th Army Dental Corps on Okinawa and in Japan until discharged as a captain in 1946.

After WWII he practiced general dentistry in Yakima until moving his family to Seattle while he attended the University of Washington Dental School orthodontic program. He graduated with the first class in 1950 and returned to Yakima where he continued to practice until his retirement in 1985. He was a diplomate of the American Board of Orthodontics, a life member of the American Dental Association, American Association of Orthodontists, Begg Society of Orthodontists, and Northwest Angle Society. He was a founding member of the Central Washington Cleft Palate Program in Yakima. He was greatly respected by his patients and staff for his skill and caring manor.

Bill enjoyed many activities during his life in Yakima. Bird hunting, salmon fishing, skiing and playing golf with family and friends filled his time away from work. He was an accomplished bridge player and excellent dancer. He was generous to his community, helped support several charities and was a member of Rotary International for

over 50 years. He was proud to be a Chairman's Circle donor to the University of Washington Orthodontic Alumni Association.

He is survived by his wife of 61 years, Marj; a daughter Evelyn Fletcher, sons Charles (UW 81, UW ortho 83) and Bill of Yakima, and six grandchildren.

Dr. Laurence "Buck" Mabbutt ('78)

Last Summer we lost a good friend, fellow alum and active participant in UWOAA activities. Laurence Waldo "Buck" Mabbutt ('78) died July 26, 2004 after a courageous battle with pancreatic cancer. He had been in practice for 25 years in the Silverdale, WA area. He was an active member of the orthodontic community. He was an avid sportsman, Harley rider, world traveler and pilot. He is survived by his wife, Joan Mabbutt, his five children and one grandson to whom he was devoted. As a tribute to the members of the Puget Sound Orthodontic Study Club who provided care for his patients during his illness, Buck donated \$10,000 to the UWOAA endowment fund.

Let's Catch Up...

Head to toe adorable! Faculty member Rafael Alcalde and UW Ortho grad Gabriella Orsini ('03) welcomed little Gabriella on July 8th.

David Engst ('77) reports that he retired from private practice in January 2004 and now volunteers full time, mostly in Latin America. "I am also refreshing my skills as a fellow in the Department of Oral and Maxillofacial Surgery at Harborview. Pictured here is a photo of an outreach in the highlands of Honduras."

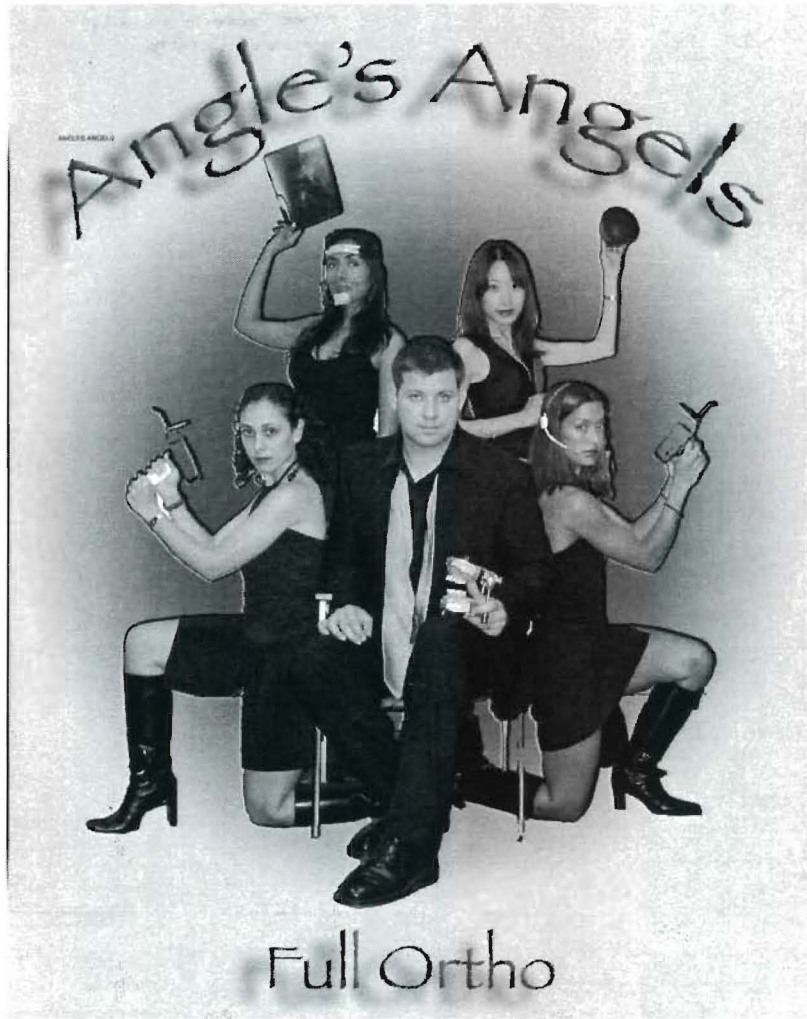

ALOOOOHAAAA! Jack ('62) and Helen Akamine enjoy some Hawaii time with a friend.

Jim Elder ('73) is happy to announce his retirement effective September 1, 2004. "My practice was sold to Perry Ormiston('02) on October 1, 2003, and we commenced a 1 year transition period during which Perry moved his family to Puyallup and assumed control of the practice." Jim and Barb spent the first 6 weeks of retirement on an RV trip to the Northeast states "10,000 miles later we are still happily married and looking forward to additional travel of all sorts!"

L

Let's Catch Up...

Ever wonder what the ortho students do in their spare time? It appears that the class of 2005 will have double duty preparing for their November Thesis Day AND saving teeth in trouble everywhere! Our students show their spirit and creativity at the GORP poster contest—they came in 2nd! From left are Parnis Sionit, Monica Madan, Josh Erickson, Soojin Kim and Danilee Baldwin.

Future Orthodontists Unite! Mike Vermette ('94) sends a picture of his CUTE kids: Nick, age 8; and Sarah, age 4. Mike says both mention that they want to be orthodontists when they grow up. Mike reports that things are going great in New Hampshire with his being in the "home stretch" of completing his Affiliate process for membership into the Eastern Component of the Angle Society! He's also a loyal Patriots fan and cheers the fact that the Boston Red Sox broke the curse of the Bambino!!! Mike says he's looking forward to the next Reunion or Update meeting.

Let's Catch Up...

Wendy, Emie Lou, and Nick ('00) Salome report that all is well at Salome Orthodontics in Texas. With a satellite office opened in South Austin in January, a "growing too old too fast" Emie Lou and events like the Ride for the Roses (Nick rode 100 miles for the Lance Armstrong Foundation supporting cancer survivorship research), Wendy says "We can't complain!"

Jonathan Kinne ('75) reports that "I sold my practice on July 1, 2002 to a graduate from the program at Oregon, and worked part-time for him for two years, until the end of June this past summer. At that time my wife Sue retired from the American Heart Association, and we left on the first of July for our cottage on Grand Traverse Bay in the northern lower peninsula of Michigan, near Traverse City. Our plans are to spend from sometime in April each year (depending on the yearly maintenance schedule for our Island Packet "Indigo") until late October in Michigan, and the winter months in Denver. We'll plan to spend the time at the cottage sailing, playing golf, hiking and entertaining, and during the months I'm in Denver I'll continue to do in-office software trainings for the Ortho II ViewPoint program, and probably represent Ortho II at the RMSO and AAO meetings, so stop by the Ortho II booth and say 'hello'."

Gary Wolf sends this photo taken at the CDABO meeting in SunRiver, Oregon last summer. Clockwise from left are Adam Wolf, age 7; Gary Wolf ('81) Rebecca Poling ('84), Judy Gilmore, Lauren Wolf, age 5, and Charlie Gilmore ('83).

Let's Catch Up...

The Justus family gets together at the CADABO meeting at Sunriver, Oregon, where Roberto served as President of the College of Diplomates. From left are Mauricio Justus (son), Leo Justus (grandson), Yolanda Justus, Natalie Justus (grandaughter), Roberto Justus ('68), Tamara Justus ('99) and David Wilkinson (son-in-law).

Does Tammy look particularly radiant in this photo? Just take a look below and see at least one of the reasons why!!

Tammy Justus ('99) shows just how beautiful one family can get. She and husband David Wilkinson welcomed darling Anabella Wilkinson on September 22nd, 2004. Here Annabella takes it all in stride at the age of 2 days!

Denny ('71) and Brenda Turner are all smiles with the kiddies: from left Granddaughters Abby (4 yrs) and Amy (6 yrs), not to mention son Jordan (10 1/2 yrs).

Let's Catch Up...

DEAN ARTHUR A. DUGONI CONCLUDES HIS DEANSHIP AT PACIFIC

SAN FRANCISCO, CA - On October 29, 2004, Dr. Arthur A. Dugoni, dean of the University of the Pacific, Arthur A. Dugoni School of Dentistry, announced that he will conclude his service as dean on June 30, 2006.

"These past 26 years have truly been a labor of love filled with wonderful experiences, and dedicated, caring and generous individuals who have touched my life, made a difference and contributed significantly to the dental school's successes and my growth as a person," said Dugoni during his remarks to the leadership at the dental school. "Although my role will change, my love and dedication for Pacific, dental education and the dental profession will continue to be a primary passion for me."

Dugoni will have a continuing relationship with Pacific after June 2006. He will assist the broader university in fund raising for the undergraduate science program on the main campus as well as the next dean for dental school objectives. "Art's talents and abilities will continue to enrich the education of Pacific students beyond his time as dean and we will all benefit from his continuing effort," stated University President Donald V. DeRosa.

During his tenure as dean, Dugoni developed and managed many innovations that have taken Pacific to its current level of national prominence, including the enhancement of the humanistic model of education. He is also credited for raising \$50.8 million (as of October 2004) towards the School of Dentistry's capital campaign, one of the largest in the history of dental education, scheduled for completion in 2005. The dental school was named in his honor on August 28, 2004.

A national and international search for the next dean has begun. President DeRosa appointed Dr. Phillip Oppenheimer, Dean of the Thomas J. Long School of Pharmacy and Health Sciences, as chair of the search committee which consists of a diverse representation of Pacific's constituents - from alumni to students. What an Olympic run Art has had in over 26 years as dean. His remarkable leadership has built a great school and has shaped dental education and the profession nationally and internationally," said University Provost Philip Gilbertson.

Pacific's Arthur A. Dugoni School of Dentistry, one of the nation's premier dental schools, has served the Bay Area community for 108 years. Pacific is committed to excellence in student-centered education, patient care and research. The school's clinics, located in San Francisco, Oakland, Union City and Stockton, offer quality, low-cost dental services to children and adults throughout Northern California.

The Class of '79 just celebrated their 25th reunion during the PCSO meeting in Palm Springs. Janice Yip reports that "It was wonderful to see everyone and to re-connect with each other. We had a great turnout- K.C. Woon and her husband, Jin, traveled the furthest- they came all the way from Kuala Lumpur, Malaysia. Fun Golf Tournament at Marriott's Shadow Ridge in Rancho Mirage From left to right: Stan Takasaki, Janice (Yip) Takasaki, Julie Gardner, Don Gardner, Annette McMinn, Glenn McMinn, and John Moore."

Helpers Unite!

Greg Guyman ('78) came up with a great idea and we want to share it with you. Greg reports that as a retired orthodontist, he continues to help local orthodontists who might need coverage of their practices due to disability or illness.

Greg suggested that we post names of orthodontists who could be available to do the same. If you are in a position to consider being available to others, please let us know. Joni will be happy to keep this list in the office.

FACULTY PROFILE: Dr. John Denny

Dr. John M. Denny (retired Colonel, USAF Dental Corps) is the former Commander of the Orthodontic/ Pediatric Dentistry Flight and the Military Consultant for Orthodontics to the Air Force Surgeon General, as well as to the Assistant Surgeon General for Dental Services. His primary responsibilities included chairmanship and teaching in the Tri-Service Orthodontic Residency Program at Wilford Hall Medical Center (WHMC), Special Consultant duties, and oversight of the Air Force Orthodontic Corps worldwide.

Dr. Denny was raised in Salt Lake City, Utah, where he majored in Biological Sciences at the University of Utah. He graduated with honors in 1970 with a Bachelor of Science (B.S.) degree. He received his Doctor of Dental Surgery (D.D.S.) degree from the University of Washington School of Dentistry in 1974, and entered active duty in the Air Force on 22 June of that year. He completed a one-year General Practice Residency at Keesler AFB, Mississippi, and was awarded a Certificate on 3 July 1975. He completed his two-year Orthodontic Residency at Temple University School of Dentistry in Philadelphia, Pennsylvania, and received a Certificate in Orthodontics and a Master of Science in Dentistry (M.S.D.) degree on 28 August 1987. Past assignments include Keesler AFB, Mississippi (General Practice Resident); Rhein-Main AB, Germany (General Dental Officer); Cannon AFB, New Mexico (Assistant Base Dental Surgeon); Philadelphia, Pennsylvania (Orthodontic Resident); Misawa AB, Japan (Chief, Department of Orthodontics); RAF Lakenheath, England (Chief, Department of Orthodontics); Travis AFB, California (Orthodontic Element Leader), and Lackland AFB, Texas (Commander, Orthodontic/Pediatric Dentistry Flight).

the AEGD-I program and the Oral and Maxillofacial Surgery Residency at Travis AFB, California, as well as the postgraduate orthodontic residency program at WHMC. He formerly held an appointment as an Adjunct Assistant Clinical Professor at the University of Texas Health Science Center at San Antonio Dental School. He is a Diplomate of the American Board of Orthodontics as of 3 March 1993. He is a member of the American Dental Association, the American Association of Orthodontists, the College of Diplomates of the American Board of Orthodontics, and the American Association of Military Orthodontists. He is a graduate of the Air Command and Staff College (1982) and the Air War College (1983). His military honors include the Legion of Merit, the Meritorious Service Medal (two bronze oak leaf clusters); the Air Force Commendation Medal; the Air Force Outstanding Unit Award (one silver oak leaf cluster); and the National Defense Service Medal (two bronze stars).

Dr. Denny is married to the former Kay Fowles, and they have two children: Kristen Elizabeth Kouzmanoff and Gregory David Denny. Kristen graduated from Washington State University in 1997 and lives in Torrance, California with her husband Alex. Greg graduated in 2001 from the University of Washington and resides with his parents in Sammamish, Washington. While John enjoys teaching, he also enjoys tennis, golf, and gardening. As he puts it, "We're extremely happy to be back in the beautiful Northwest where I can participate in all of these."

Colonel Denny has considerable clinical, teaching and lecture experience. He has presented before the USAFE Medical/Dental Conference in Garmisch, Germany, and before county dental societies in California and Nevada. His teaching experience includes undergraduate dental education,
