

## University of Washington Orthodontic Alumni Association 2015 Newsletter

### The Talent Behind The Riedel Thumb..... World Class Artistry From Our Own Donald Gardner, Class of 1979

Most of you know about the "Riedel Arch Former," a bronze replica of Dick Riedel's thumb. Allan Van Ness ('72) paid tribute to the history of the Arch Former at our 2014 Alton Moore Lecture and previously wrote of Dr. Riedel, "We would marvel at his ability to take a seven inch piece of .019 x .026 stainless steel wire and wrap it around his thumb to achieve his initial torqued arch form. His wire bending ability would mesmerize us and his thumbs seemed bigger than life. Not because his thumbs were large, only because of what he could do with them."

Dr. Van Ness had the foresight to approach his friend, Dr. Donald Gardner (Class of 1979), to help create replicas of the (previously plaster cast) thumbs and was met with generosity as well as talent. "Don Gardner, when asked what the charge was for the two boxes of arch formers, said "nothing, it's my contribution to the alumni." Dr. Gardner has continued to produce the Riedel Arch Formers to honor their namesake as students carry them forward to their practices every year.

Now it is our turn to honor Dr. Gardner. His skill and artistry are truly world-class and we are happy to share just a few of his outstanding works here.

Thank you, Dr. Donald Gardner, for being such an integral part of something we treasure day-by-day!

**THE ART AND ARTISTRY OF DR. DONALD GARDNER,  
UW ORTHODONTIC GRADUATE, CLASS OF 1979**

Dr. Gardner's interest in art began at an early age and dental school helped him hone his technical skills. When his dental career was shortened by a back injury, he studied bronze sculpture technique under Stephen LeBlanc, a noted wildlife artist.

Dr. Gardner's bronze sculptures show beautiful elements, from muscle groups and expressions to fine details of feathers. His sculptures include wildlife, Native Americans, hunting and fishing, dogs and golfers, and range in size from six inches to life size monuments.

**Message from UW Department Chair Greg Huang**

Dear UW Ortho Alums,

My best wishes to each of you as we move forward into 2015. I am very excited about this year, as we can look forward to several notable events. For starters, some of you may know that David Turpin and I are the Doctor's Program Chairs for the upcoming AAO meeting in May. Dave and I have spent many hours inviting an all-star cast of orthodontists to lecture at the meeting. We will feature over 100 speakers (more than 30 of them international), and we have incorporated several innovative formats. For example, we have 2 Point-Counterpoint sessions scheduled which will address early Class II treatment and surgical vs non-surgical management of sleep apnea. We have also planned a "College Bowl," in which residents from the California schools will debate 2 topics – management of asymptomatic third molars and exposure techniques for impacted canines. I hope many of you will be attending the meeting, and of course, make sure to stop by our UW Alumni Reception.

Another event in 2015 is the WFO, which will be held in London. The WFO only holds its meetings every 5 years, and I have always heard they are special events. I am looking forward to attending for the first time. Kevin O'Brien has organized a wonderful Doctor's Program, and I would like to encourage you to all consider attending this meeting in September. (I am hoping Roberto Justus can get us some court time at Wimbledon!)

Also, I am pleased to report that the Openbite Project that I proposed to the National Dental Practice-based Research Network continues to move through the development phase, and is scheduled to launch in the latter half of this year. This is exciting for many reasons. First, this study is the first specialty study to be accepted by the National Network, and we hope to get approval for two more studies in the near future. Second, it will be a national study, and UW practitioners from all over the country can participate by enrolling in the National Network and contributing patients to the study. Finally, this will be the largest prospective study of anterior openbite that I am aware of, following patients through treatment and then for one year of retention. It should provide us with some good evidence about the most effective treatment strategies, as well as the factors that are related to long-term stability.

One final event will not be held until 2016, but I think it is not too early to remind you about it. In the summer of 2016, we are planning to have our alumni reunion aboard a cruise ship to Alaska. You will be hearing more about this in the months to come, but please keep this in mind as you make vacation plans for the summer of 2016. We are hoping for a great turn-out for this week-long cruise, which will feature CDE.

As always, I appreciate the tremendous support provided by each and every one of you, and I also wish to thank Paul Nelson and Perry Ormiston for their efforts in leading the Alumni Association. Again, my very best for a wonderful year!

Sincerely,

Greg J. Huang, DMD, MSD, MPH  
Professor and Chair

## Message from UWOAA President Paul Nelson

Greetings everyone! The Board of Directors of the UW Orthodontic Alumni Association is dedicated to careful management of your dues which operate the association and your donations to the endowment fund that provide support to the department and enhance the educational experience of the residents.

The 34<sup>th</sup> Alton Moore Lectureship was presented on Friday, December 12th at the Talaris Conference Center. The afternoon began with a catered luncheon followed by excellent research presentations by the five graduate students. We can all be proud of our new fellow alumni. Following a brief history by Al Van Ness, the graduates were each given a bronze replica of the coveted Dr. Riedel “arch-forming thumb”.

The afternoon lecture was given by Gerald Nelson who gave a thought-provoking presentation on the use of CBCT in orthodontic practice. A reception followed where the residents received their certificates from Chairman Greg Huang. They each expressed thanks and talked about their experience in the program. A presentation was made by John Moore who recently retired after serving as a clinical instructor for an impressive 35 years. He shared a history of the department complete with pictures dating back to the inception of the program. He also gave a nice tribute to his father Alton Moore for whom the meeting is named.

As John Moore reviewed the history of the department I thought about the many people who have selflessly given back to the program over the years. Much of what I learned as a resident was from orthodontists who took time away from their private practice to teach as clinical instructors. My father (James Nelson '66) worked with Dr. Riedel for a few years after graduating and was treated very well. When Dad opened his office in Ballard nearly 50 years ago, Dr. Riedel kindly steered patients his way as he established his practice. The same collegial environment originally established by Drs. Moore and Riedel lives on and is a hallmark of the department.

Many of you have also contributed to the ongoing success of the department as instructors and through generous financial contributions. That generosity recently financed the successful renovation of the graduate clinic. Our focus has now shifted to replenishing the endowment fund as well as supporting the Kokich-Shapiro Endowment.

We anticipate a large turnout for our alumni reception at the AAO in San Francisco this May. We are also excited to announce an Alaskan cruise for our next alumni reunion in the summer of 2016. We will set the date soon and hope that you will set aside time to join us for the reunion cruise.

The alumni board represents each of you and we welcome your input. Please feel free to contact me or any member of the board if you have ideas or suggestions. Thanks again for your continued support!

Paul Nelson ('95)  
UWOAA President  
Paulnelson1@gmail.com

## **ALTON MOORE LECTURE AND THESIS DAY 2014**

### **Dr. Gerald Nelson and the Class of 2014 Showcase Excellence at the Thirty-Fourth Annual Alton Moore Lectureship**

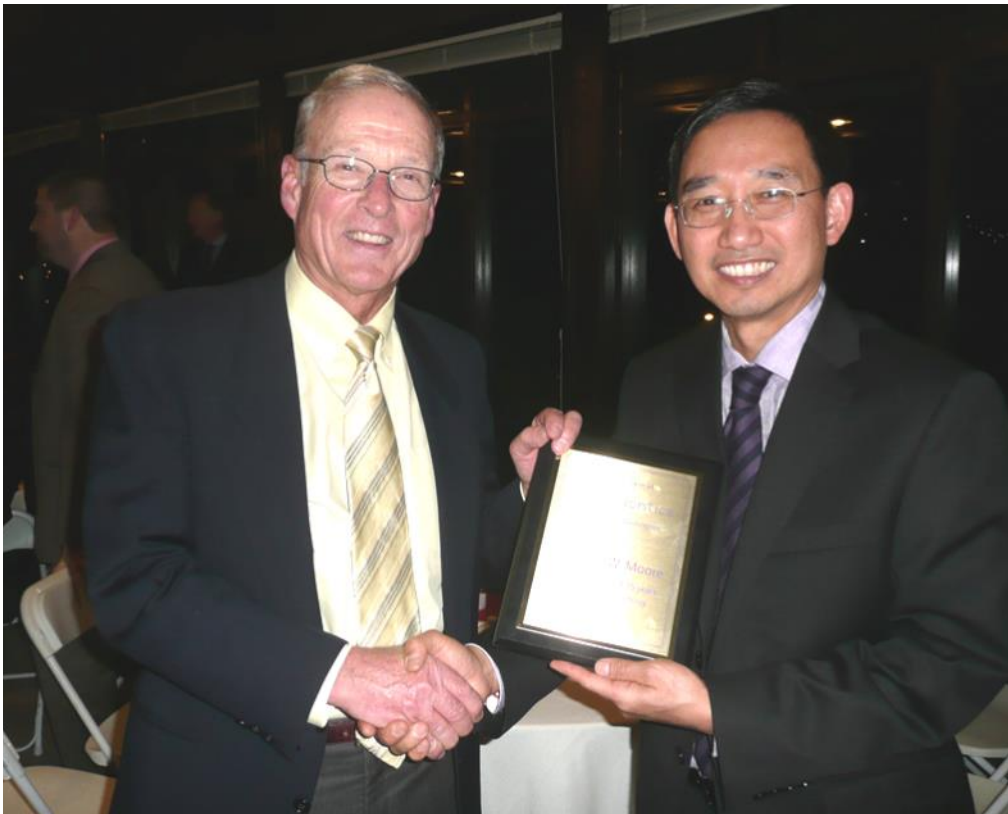

Happy Madd Hatters! Now official owners of the Riedel Thumb, the Class of 2014 celebrates with their "head gear" gifts from the Department. From Left: Susan Kim, Jantraveous Merritt, Soleil Roberts, Greg Huang, Maria Nart, and Blake Davis.

UWOAA President Paul Nelson ('95) and Department Chair Greg Huang join Alton Moore keynote speaker Gerald Nelson.

## ALTON MOORE LECTURE AND THESIS DAY 2014

As he prepares for retirement, John Moore ('79) is congratulated by Greg Huang. Attendees were treated to a special presentation and reflection on John's many years of mentoring and inspiring students at the UW Orthodontic Department.

Mariana Muguerza ('15-16), Heidi Horwitz ('01), Barbara Sheller ('87) and (Mina Katchooi ('17) share stories during the lunch break.

## ALTON MOORE LECTURE AND THESIS DAY 2014

Clinic women united! Marcie, Samuela and Vladka celebrate with the students.

John Ive ('79) and Bill McNeill ('64) are all smiles at the morning break.

Upcoming graduates Kevyan Sohrabi (Class of 2015-16) and Kelly Weikert (Class of 2017) get some tips from now-veteran Sarah Cassidy (Class of 2013).

## ALTON MOORE LECTURE AND THESIS DAY 2014

**Hard-working Ladies Who Lunch! These wonderful orthodontists manage their practices, teach, volunteer and raise families. What great role models for upcoming generations of women in science!**

Anne-Marie Bollen (Faculty) and Krissy Grey ('98)

Heather Wolosyn ('93) and  
Diane Doppel ('90)

Heidi Horwitz ('01) and Elizabeth  
Lyons ('00)

## ALTON MOORE LECTURE AND THESIS DAY 2014

Great smiles run in the family! Jantraveus Merritt celebrates graduation with his parents and sister.

Fine faculty members Sue Herring and Doug Ramsay enjoy the luncheon.

Faculty member Richard Jones and Paul Nelson ('95) get ready for the student presentations.

## ALTON MOORE LECTURE AND THESIS DAY 2014

Kortne Frederick Hou (Faculty), Sarah Cassidy ('12), Reid Winkler ('06) and John Denny (Faculty) enjoy their luncheon together.

Maria Nart's family joined in the happy day with their graduate!

## ALTON MOORE LECTURE AND THESIS DAY 2014

A Happy Day for the Kim family! Susan celebrates with her parents.

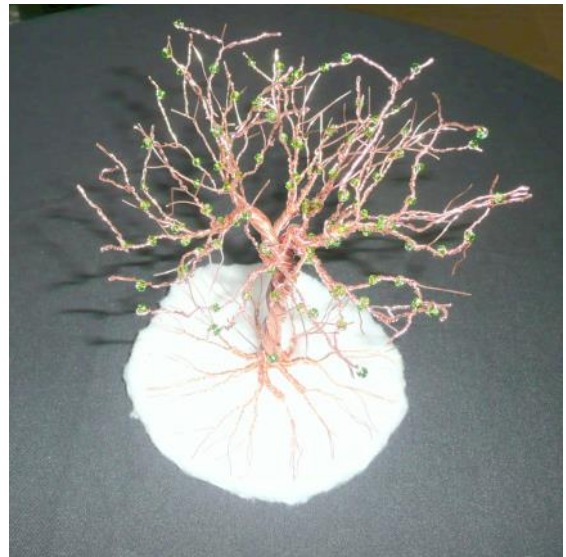

The gang's all here! Clockwise from bottom center: Allan Van Ness ('72), Jace Beattie ('12), Tim Shields ('83), Guest Speaker Gerry Nelson, Dave Turpin ('66), John Denny (Faculty), Brett Fidler, ('92), Paul Nelson ('95), and Robert Bendzak ('65)

**Meet The Bendables!**  
**Here are our Great Wire Sculptors from the Class of 2017...**  
(from left) Fedora Katz, Shean Han Soh, Derek Hou, Kelly Weikert and Mina Katchooi

Derek takes his holidays seriously!  
Everyone smiled when they saw  
Santa and Rudolph.

A tree with lights! Shean's beautiful  
sculpture was a little winter delight.

We can't say it any better than Mina: "Rising above the water to extract energy from the sun, the water lily is a reminder that perseverance will lead to reawakening."

Beauty under the sea!  
Fedora took us to an  
enchanted underwater  
world.

Kelly perfectly captures the  
poetry-in-motion of a  
cantering horse!

## Contributions\$ Update

Your continuous and generous contributions have been the foundation for Association support to the UW Orthodontic Department. Alumni have asked about how their contributions are received and credited by the Association. Here is a brief breakdown:

### TYPES OF CONTRIBUTIONS

1. *Contributions to the UW Orthodontic Alumni Association.* Tax deductible checks are made out to the UWOAA and mailed directly to the Association. Credit toward "club" level is given upon receipt of the check. The donation may be directly from an alumnus or on the behalf of an alumnus by another person, such as a referring dentist. The donor receives tax credit and the alumnus receives club credit. The person contributing must indicate the name of the alumni member who should receive credit to their club level. Contact Joni Marts for "In lieu of" forms to facilitate others donating on your behalf.

2. *Contributions directed to specific funds at the UW.* Tax deductible checks are made out to the University of Washington and mailed to the Department of Orthodontics, specifying which fund the monies are to be directed (see below). The Fund Development Office then receives and processes these funds for the Department and reports their receipt to the UWOAA. The Association then gives Club credit to the UW alumni contributors. As above, another individual may donate on behalf of an alumnus directly to a specified fund and receive the tax deduction. Checks should be sent to the UW Orthodontic Department. Also, the donor should indicate which alumnus should receive credit for club status.

### ***Is someone donating on your behalf?***

It's important that we know that so you can receive proper club credit and kudos along the way! Please encourage anyone you know who might be indicating a generous gesture on your behalf to mention your name to us.

**CHECK OUT OUR WEBSITE!!**  
**You can make donations and**  
**pay your dues online!**

[www.uwoaa.org](http://www.uwoaa.org)

### CANADIAN DONORS

There has been a question raised of whether donations to the Clinic Fund are eligible for tax deduction in Canada. The University of Washington Corporate Tax Manager, Richard Ruvelson, has provided the following information for our alumni: Donations to University of Washington are deductible in Canada. We are listed in Schedule VIII of The Income Tax Regulations. If you have questions please phone Revenue Canada in Ottawa-1.800.267.2384, in Canada. Or contact Richard Ruvelson directly.
